

“Take Your Place in History”  
Purchase a Commemorative Brick  
for the  
Plato Sports Field Concession Building

Plato R-V School has a need to replace the current concession/restroom building at the athletic field. The Building has wind storm damage and the restrooms do not meet with Americans with Disability Act (ADA) requirements.

The School has \$3,500.00 from insurance money and the NWTC Lions Club have pledged another \$3,500.00 matching grant to replace the concession building.

The estimated cost to replace the building is \$20,000.00. The plan is to raise the remainder of the money by selling engraved paver bricks to be placed in the patio in front of the new building. This location will afford full visibility of all bricks. Have the brick engraved with your personal name or a memorial. A few other engraving ideas for brick purchases are to commemorate a life, honor a veteran, celebrate a special occasion, or a fun message.

Construction will start when 95% of the money has been raised. The planned completion date for this project is April 1, 2012.

Your Role – To support this project, you can purchase a brick to help improve our community and support young athletes. Please complete the form on the reverse side. Forms can be turned in to any Plato R-V School Office.
